ORACLE CERTIFIED ADVANTAGE PARTNER

About CD Group

Founded in 1992, CD Group, Inc. is a leading provider of Enterprise application and technology solutions.

As your partner, CD Group seeks to understand your company's needs and will provide fast, cost effective, and high quality solutions in order to achieve a fast return on your investment. CD Group offers a full range of software and services.

Oracle ERP Solutions

CD Group is a leading provider of Oracle® ERP solutions for both the JD Edwards and Oracle E-Business Suite product lines.

As a leading Oracle reseller CD Group assists our customers with turnkey solutions for products and services. By leveraging the Oracle Business Accelerators CD Group can deliver Oracle ERP solutions in a low cost, fast time to benefit model.

CD Group provides a broad range of services to both JD Edwards and Oracle E-Business Suite customers. These services include upgrades, migrations, implementation services, development services, and technology services. Through our Technology Support Center CD Group provides a broad range of offerings to assist customers with managing their Oracle solutions.

Oracle CRM

CD Group provides Oracle customers with multiple CRM options for their enterprise.

As an Oracle CRM On Demand reseller CD Group delivers low-risk, hosted customer relationship management (CRM), with little or no up-front IT investment. With Oracle CRM On Demand you can accelerate sales, improve marketing, and deliver consistently top-notch customer service. Companies of all sizes can leverage Oracle CRM on Demand to centralize vital customer and sales data, and gain real-time snapshots of customer interactions.

Additionally CD Group provides solutions that are available as a component of JD Edwards EnterpriseOne and/or Oracle EBS.

Oracle Business Intelligence

Oracle (BI) is a complete, integrated, and attractively priced solution for the small to medium sized business. Oracle BI provides comprehensive BI functionality-interactive dashboards; highly formatted reports, self-service ad hoc

analysis, data integration, and server administration - all delivered on one common, modern Web architecture.

Companies are realizing that, despite the business benefits their ERP system can offer, they require a solution that will enable them to leverage ERP information for the greatest impact on the bottom line. At the core of such a solution is business intelligence.

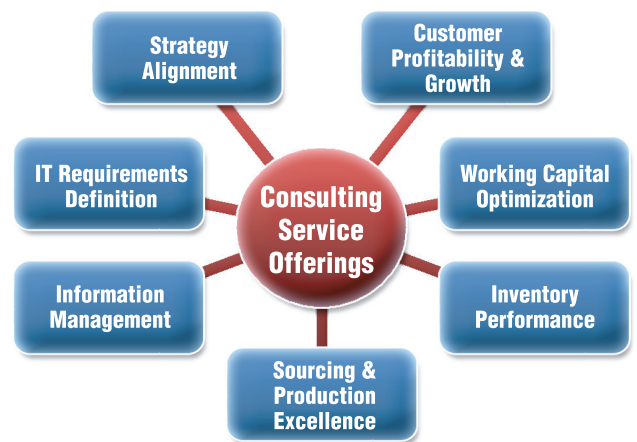

CD Group is a leading provider of Oracle Business Intelligence solutions including BI tools, BI Applications, and Financial planning. These solutions can help you gain strategic insight into your business and readily access the answers to the questions that impact your company's future.

Oracle Technology Solutions

CD Group is an authorized Oracle reseller for Oracle Technology products. CD Group provides a broad range of cost affordable Oracle technology solutions for our customers.

Business Consulting

Business Consulting at CD Group focuses on solving targeted business issues through the use of management consulting techniques plus Enterprise Systems and Business Analytics technology. By building in-depth knowledge of your business, we will use IT enabled methodologies to create quantifiable value by addressing key business issues.
